This memo is to inform you that the compounds listed below were not able to be validated by USDA's Pesticide Data Program (PDP) and were not analyzed in strawberries during the timeframe of October 2014 through September 2016. These compounds have established U.S. tolerances for strawberries but did not recover through the QuEChERS Multiresidue Method (MRM) employed by the California Department of Food and Agriculture laboratory, which was assigned to test strawberries for PDP during this time period.
